

## WELCOME TO THE JUNGLE

Inspired by the sunny surrounds of its Sydney-based studio, Dinosaur Designs' Rainforest collection marks 30 years in the business. The over-sized tropical platters will brighten the darkest cabinet recesses. The pieces don't just draw on the natural world aesthetically but seek to minimise environmental impact too, with a percentage of sales donated to the Australian Conservation Foundation. From £65. ### SPRING SHADES

While Sir Terence Conran launched Paint by Conran just two years ago, the paint business has run in the family since before World War II, with his father's coating company. Since 2014 it has launched 96 shades, including several classic Conran colours. The palette has had an overhaul for spring, with 12 lively new hues that are sure to break your 'shades of grey' habit. Use contrasting colours, like Aloe Spike and White Floret, in clean lines to add definition to a space. Emulsion from £36 per 2L. [paintbyconran.com](http://paintbyconran.com)
