## Gharieni still has Edge after 25 years

Libra Edge K spa bed is a fitting celebration of the premium brand's quarter century

Sammy Gharieni

A leading producer of wellness and treatment couches, Gharieni has created some of the most elegant and innovative spa furniture of the last 25 years.

The German-made brand is synonymous with exceptional quality and service, and its reputation continues with the latest addition to its HydroSpa Collection, the Libra Edge K.

With a base made entirely from Corian solid surface, the spa bed features a shower arm by Kohler, a range of pre-programmed aqua choreographies accessible via a touch-screen interface, and a built-in bluetooth music system.

Fully adjustable in height, the Libra Edge K also has a zero-gravity position and its edges provide controlled waterflow to prevent flooding. The heated, integrated

water mattress boasts superior comfort for guests and has LED illumination for chromotherapy usage.

The Libra Edge K joins Gharieni Group's extensive portfolio of high-end equipment that also includes massage tables, relaxation loungers, furniture and cabin equipment.

Asked about his company's enduring ethos, CEO and founder Sammy Gharieni says: "We specialise in supplying high-end equipment for luxurious spa, wellness and beauty facilities, and support our clients from the initial concept to the final installation.

"Our USPs are elegant design, perfect multi-functionality and high quality materials in all of our spa equipment, which guarantees extraordinary wellness experiences."

**Coco Wolf** ▶  
Outdoor furniture

Founded in 2013 by sisters Rebecca Le Noel and Claudine Davis, along with their respective partners, Coco Wolf's ethos is centred on providing 'a seamless flow of living areas into the exterior space'.

The brand's British-made, bespoke luxury outdoor furniture comprises five product ranges that span both contemporary and classic styles. The handcrafted pieces can withstand the rain, wind and sun due to the use of breathable and hard-wearing sustainable materials, and the furniture's frames are guaranteed for five years.

Each item can be produced in bespoke sizes, colours and textures, while all Coco Wolf upholstery is changeable, allowing customers to transform their furniture according to the season and occasion.

**KLAFS** ◀

Infrared Cabin S1

KLAFS is to debut a second product based on its space-saving Sauna S1 concept. The Infrared Cabin S1 is a completely self-contained, mobile system that is able to retract at the touch of a button, similar to the zoom lens on a camera.

Available in two sizes from September 2016, the Infrared Cabin S1 will be just 45cm deep in its fully retracted position, but can offer space for up to two people when, upon pressing a button, it is ready to use in less than 20 seconds.

The cabin's seats fold away like those in a cinema and feature supple, soft padding. There is also a rotatable mount on the wall for tablets, and the cabin's infrared lamp can measure the skin's temperature and gently adapt the intensity of its ray to suit the individual.
