COCO WOLF

Unimpressed with the range of generic outdoor furniture available on the market, sisters Rebecca Le Noel and Claudine Davis created Coco Wolf to provide elegant and durable furniture that has the same attention to detail bestowed upon high-end interior furnishings. There are five ranges in the Coco Wolf collection, ranging from classic to contemporary. Each piece is a bespoke creation hand-crafted in Britain with changeable upholstery available. Two years of research went into establishing fabrics and frames that would withstand rain, wind and sun. Bring on summer.
